

Supplementary Table 2. Correlation between the difference in the value of IL-6 and the difference in total PANSS

Variabel	Treatment (N=21)		Control (N=21)	
	Difference IL-6		Difference IL-6	
	r	p	r	p
PANSS difference	-0.201	0.383	-0.163	0.480

r=correlation strength, 0.1–0.3=weak, 0.4–0.6=medium, 0.7–0.9=strong. PANSS, Positive and Negative Syndrome Scale
