Supplementary Table 8. Sensitivity correlation analysis between inflammatory cytokines and illness duration excluding two extreme values

Correlation coefficient	CRP	IL-1β	IL-6	IL-8	TNF-α
Illness duration except extreme values	0.368*	0.000	0.225	0.129	-0.038

*p<0.05. CRP, C-reactive protein; IL, interleukin; TNF, tumor necrosis factor.
